# UPCYCLE YOUR LAPTOP

mateneen

ŒUVRE Nationale de Secours Grande-Duchesse Charlotte

1 Donate unused computers, tablets, smartphones and other electronics to us by visiting **digital-inclusion.lu/contribute**

2 Digital Inclusion works with refugees and other volunteers to erase your data, repair your machines and recycle them

3 The equipment is distributed in Luxembourg to refugees and other people in need, as well as to integration projects

4 Your computer becomes a tool for digital inclusion, education, communication, empowerment and social integration

Who are we?

Digital Inclusion is a non profit (A.s.b.l) founded in February 2016. Our goals are:
- making **information technology accessible to everybody**
- promoting **social inclusion** through digital technology
- taking action for the **environment**

We are supported as a mateneen project of the Œuvre Nationale de Secours Grande-Duchesse Charlotte.

What do we do?

In our project, **New Life for Computers – Computers for New Arrivals**, we recycle donated computers. We want to provide a free computer to anyone in Luxembourg who cannot afford it. Other projects include electronics and construction workshops, computer support for refugees, a public access computer room, computer-assisted language learning workshops and more.

Our activities are open to everybody! By including both refugees and local volunteers who are interested in technology, we provide opportunities for everyone to contribute to our goals and to participate in cultural exchange between people from many different countries.

How can you contribute?

We rely on **computer donations** from individuals, companies and organisations. We collect laptops (not older than 2005), desktop computers, smartphones and tablets (not older than 2010) and other electronic equipment. Donations can be dropped off in Luxembourg City by appointment. Please visit **digital-inclusion.lu/contribute/** to learn more.

We also look for **volunteers** interested in helping us get access to technology. You can also help us by **spreading the word** to your employer and to your friends -- print our flyer or share it on Facebook. Please visit digital-inclusion.lu for more details!
