

¿Cómo puedo conseguir un ordenador de segunda mano gratis?

*Si es un MNA (menor no acompañado), consúltenos sobre sus opciones.

Why should I get a computer?

I don't need a computer, I can use my smartphone to write emails and look up information.

But a computer can help you to do so much more!

As our society becomes more and more digitalised, you may find a smartphone can't do all the things you need. A computer can help you reach the next level, whether you are a student, looking for a job, or hoping to start your own business.

How can a computer help me?

- ✓ **Write like a pro:** write and send longer emails, write official letters, attach documents.
- ✓ **Upgrade your homework:** complete homework online, create presentations for class, access online learning platforms.
- ✓ **Find a job:** write a CV, search and apply for jobs online, use common tools like Word and Excel with confidence, follow free online courses to learn new skills.
- ✓ **Be your own boss:** Create a website, advertise your services, learn to keep accounts, sell your products online, create invoices, register your business.
- ✓ **Administrative tasks:** Apply for official paperwork, register to vote, find information on your legal rights, learn whether you can get support from the government or other organisations.

Sounds good, but you don't know where to start? Don't worry!

Digital Inclusion runs computer classes on many of these subjects. Check out our website or our Facebook page to find information on our latest courses:
